

Vertos P Coverplate EJs for Walls

VtP: The VtP is a coverplate-type wall expansion joint system. It is designed to be integrated with finishes such as plasterboard, render, aluminium-panel, and others. VtP can be installed in walls or ceilings internally or externally. Where structural movement joints are designed into corners, obtuse or acute angles can be accommodated. The system has adequate seismic function. It has an optional PVC gland for external applications. VtP can be powder-coated to a colour option, or supplied in a stainless-steel finish.

Vt P

Previous Model No: UP

Performance

- Concealed fixings
- Seismic movement
- Colour range available

Standard Length

3.6m

Standard Finish

Anodised Aluminium

Cover Plates
